Black Siris

***Albizia lebbeck* (L.) Benth.**

F-Mimosaceae

Medium sized deciduous tree with brown bark. Leaves are bipinnate and flowers are cream colour, like powder puff. Pods are long flatted and 6-12 seeded, remain long on the tree. Widely planted as an ornamental tree, wood is termite-resistant used for making furniture, cart, fire wood and charcoal. Spear is good for soil binder and leaves are used as a green manure.
