Krishna Fig

Ficus benghalensis Var. Krishna (C.DC.)

F-Moraceae

Krishna fig is medium size deciduous tree with fend wrinkles on grey bark. The leaves are unique with a cup structure on lower leaves popularly known as butter cup. To escape from punishment, Lord Krishna rolled the butter in a leaf of this tree to hide the butter, its believed that the leaves of the tree took the shape of cup after this incident. It is also used in medicinal purposes to treat various ailments such as dysentery, syphilis, fever, ulcer, vomiting etc. Aerial roots are also appear on the trunk or branches.
