Bixa Orellana L.

F-Bixaceae

Bixa orellana is evergreen shrub or small tree. The plant is best known as the source of annatto, a natural orange-red condiment obtain from the waxy arils. That cover the seeds. The wood is use to make light implements. The fruits are spiky, oval shape. Two colour fruits are available in India one is green and another one is maroon colour. Bark is brown and flower is white and light pink. Famous for its orange colour Annatto. Use for colouring of cake or beverages as a natural colour. Widely use for ornamental purposed in India.
