

S_No_	188
Vernacular	कड़वी पत्ती (Bitter Leaf)
Scientific	Gymnanthrnum amygdalinum
Family	Asteraceae
Remarks_	मधुमेह और सूजन रोधी (Anti-diabetic and anti-inflammatory)
Latitude	23.3551
Longitude	85.2435
Plant_Orig	Exotic

Bitter leaf	<i>Gymnanthemum amygdalinum</i> Delile.	F- Asteraceae
The common name of <i>Gymnanthemum amygdalinum</i> is bitter leaf tree, veronica and river Vernonia. It is multi-branching medium size tree. The leaves are bitter taste mostly used in traditional medicine like malaria, diabetic, fever and stomach ache pain. The leaves are elliptical, lanceolate or ovate with dented margin. The flower are blooming in cluster on tips of the branches in white colour like Vernonia. It is easily propagated through cutting.
