The Queen of Night

Nyctanthes arbori-tristis L.

F- Oleaceae

It is commonly known as night-blooming jasmine, a tree of sadness, and a tree of sorrow, because of foliage becomes droopy as blooming flowers fall off during the early morning. Locally known as Harsringar and Parijat. Small size deciduous tree with simple rough opposite leaves. White fragrant flower with cylindrical orange tube corolla blooming in cluster. The fruit is bilobed, flat brown heart-shaped each to be containing a single seed. Widely grown for its fragrant flower. Which are a source of essential oils. The leaves have been used in Ayurvedic and Homeopathic for sciatica, Arthritis. Flowers are still fresh after being dropped.
