Indian Rosewood

Dalbergia sissoo Roxb.

F-Papilionaceae

Dalbergia sissoo is semi deciduous big tree with grey rough bark. Commonly known as Indian Rosewood and Shisham is a fast growing species. Oval-shaped leaves with pointed tips, flowers are light cream in colour. Fruits are flat 1-4 seeds found in each pod. Pods remain hanging on the tree up to new flowering starts. Leaves are good fodder and wood is popular for high-quality timber.
