Kasood

Cassia siamea (Lam.) Irwin et Barneb

F- Caesalpiniacea

Cassia siamea also known as Kasood tree. Kasood a medium sized deciduous tree with rough, cracked, and grey bark. It is native to South and Southern Asia. Due to attractive yellow flower at the end of the branch mostly growing for ornamental and shade purple in road side plantation. The foliage used as a fodder and wood is used for making sticks and cabinets. One of the best species for roadside plantation in India.
